ABOUT US

"Excellent Standards in Smart Intelligent Integrated Security Products is the synonym of SECUREYE. "

Secureye is one of the leading brands in industry since last 28 years in the field of security products. We are expert in providing cutting edge technology in security & surveillance domain. Our product ranges from closed circuit cameras to biometrics and entrance security products to access control systems.

Journey Till Now : Secureye took the lead in launching many path-breaking products in its first few years of existence itself. In around 2004, the launch of DVR card, TV Line camera, Switcher & Quad constituted the total Security and Surveillance Structure of Secureye.

In 2011 Secureye's brand-new generation DVRs based on latest platform had a shining debut. Once these DVRs came to public eyes, they've received popular positive feedbacks from distributers and direct customer around the world. Also, Secureye is the FIRST Company in India to launch AHD camera in 2012.

Secureye has also attained great importance to reach the development of camera products, such as IP cameras (ranging from 1.3 megapixels to 5.0 megapixels), HD-SDI camera etc. Presently we have maintained a long range of products which can definitely help you to find the product that suits your requirement the most.

Recently we have upgraded our security & surveillance domain by launching FALCON & IBIS series of CCTV Cameras with outstanding features and specifications where as the Wi-Fi based cameras are just a plug-n-play model for every end user.

In this journey of 28 years we have catered thousands of clients across multiple vertical of industry. Some of our clients are top brands from Automobile sector, Education sector, Hospital & Healthcare, Hospitality & Hotels, Govt organizations and many more. Indian Army, CRPF, CBI (Central Bureau of Investigation), Ministry of Mines, Income Tax Department, State Bank Of India, UCO Bank, AIIMS, Max Healthcare, HCL, DLF, Delta Group, Jaypee Group, L&T, ZEE TV, Bharti Infratel, and many more are some of our elite clients whom we have served to ensure safety & security in their premises.

Secureye have passed ISO:9001 quality management system certification, BIS – Indian Standard Certification and some international certifications such as ROHS, CE, FCC. Our products with high credit are sold in Europe, America, Japan as well as Taiwan and are widely used in many fields such as Banking, Public Security, Energy Resources, Intelligent-Building and Intelligent – Transportation.

Ontime Time Attendance System

Desktop / Web / Cloud Time Attendance System

Corporate Version

Employee attendance management and students attendance management is directly linked with their commitment to the work in any workplace. It takes a lot of efforts to manage manpower be it in the schools or in the offices. The solution helps the organization best manage their employees work time and use it to draw insights and helps the management to keep the stake holders happy and satisfied.

The solution focuses on the students and the teacher attendance as a strategic part of school management with the accuracy rate more than 99%. It completely eliminates the data entry errors and calculation by replacing manual preparation of attendance sheets and mechanical time cards.

Overview

Parking management streamlines your parking operations by speeding up the registration process. Now, one does not have to waste pages and pages in ticketing. It is a paperless permitting system. The application enables a person to access the data from one's mobile device. This level of accessibility helps the users with an extensive reporting that helps to draw insights about the matter. An analytical decision helps improving the profit margins. In the end, it reduces the lines of vehicles completely and increases the satisfaction level.

S-BB100

Automatic Boom Barrier

- Maximum Boom Length upto 6mtr (With Retractable Feature)
- Aluminium Boom in 75/80mm OD
- Opening Time : 4-6 Second
- Power Supply 230V
- With IP55 protection grade
- Operating Temp: -10°C to +55°C
- Colour RAL2002

### S-BB100-L

Smart LED Boom Barrier

- Boom Length upto 6mtr
- Aluminium Boom
- Opening Time 3-6 Second
- IP55 Protection Grade
- Weather Proof Body
- Remote Distance 10-20mtr
- Access Control System

S-BB300

Automatic Toll Boom Barrier

- Maximum Boom Length 3mtr with 2 mm round aluminum
- Boom Protection: With Foam
- Max. Torque: 100NM
- Opening time: 0.9-1.2s
- Power Supply: 230V AC
- Protection Grade: IP55
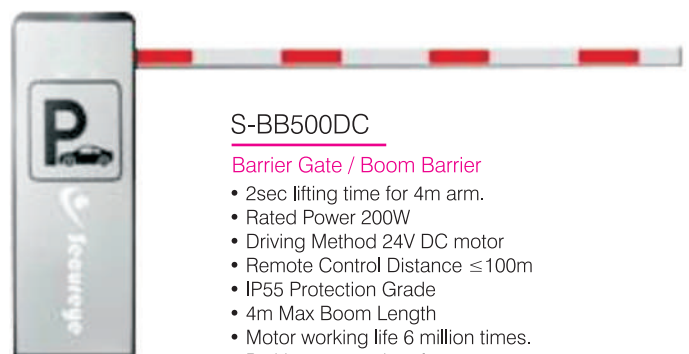

S-BB500DC

Barrier Gate / Boom Barrier

- 2sec lifting time for 4m arm.
- Rated Power 200W
- Driving Method 24V DC motor
- Remote Control Distance ≤100m
- IP55 Protection Grade
- 4m Max Boom Length
- Motor working life 6 million times.
- Parking system interface.

Metal Detector

S-HMD-100
Hand Held Metal Detector

• Weatherproof rubber handle
• Selectable Vibrating Alarm
• Secure Internal Sensitivity Adjustment
• High Sensitivity
• World Renowned
• Sharp audible alarm and bright red LED
• All Metal Detection
• Self-calibration
• Momentary push button
• Rugged, High-impact ABS case

S-HMD-200
Hand Held Metal Detector

• Weatherproof rubber handle
• Selectable Vibrating Alarm
• Secure Internal Sensitivity Adjustment
• Low Sensitivity
• World Renowned
• Sharp audible alarm and bright red LED
• All Metal Detection
• Self-calibration
• Momentary push button
• Rugged, High-impact ABS case

S-DFMDS
SINGLE ZONE Door Frame

• Metal Detectors
• Ultra High Sensitivity
• Detect ferrous and non-ferrous metals
• Audio visual indication
• Rugged, aesthetic design for easy and
  quick assembly
• Corresponding to height or human body

S-DFMDM
MULTI ZONE Door Frame

• Metal Detectors
• Ultra High Sensitivity
• Detect ferrous and non-ferrous metals
• Audio visual indication
• Rugged, aesthetic design for easy and
  quick assembly
• Corresponding to height or human body
• Multi zone to precisely identify locations
  from head to toe.

S-RS5002
- Frequency: 8.2 MHz
- Unit Dimension: 161*42*20cm
- Material: Aluminum Alloy
- Detection Distance: RF Label:0.8~1.6m, Hard
- Tag:0.9~1.8m

S-RS5001
- Frequency: 8.2 MHz
- Unit Dimension: 170x49x20cm
- Material: Aluminum Alloy
- Detection Distance: RF Label:0.8~1.6m, Hard
